Respectfully submitted,

G. B. PRAY,	}	Selectmen of Albion.
E. M. WING,		
C. L. TAYLOR,		

I hereby certify that I have examined the town books, and accounts of the selectmen and find them correct.

ROY W. LIBBY, Auditor.

Report of the Board of Health.

The local board of health of the town of Albion, respectfully submit the following report:

As required by the statutes we have held four regular quarterly meetings, at which the sanitary condition of the town was fully discussed.

There were no epidemics or contagious diseases reported for the year.

There have occurred twenty-four deaths during the year, as follows:

DATE	NAME	AGE	CAUSE OF DEATH
1904		Y. M. D.	
Mar. 7.	Lucy A. Libbey,.....	60 .. 27	Complicated disease of stomach and liver
Mar. 23.	Rosilla B Reed,.....	79 8 2	Influenza—exhaustion
Mar. 26.	James Hussey,.....	59 1 17	Dis. of brain—soft'g
Mar. 31.	Chas. J. Wells,.....	Lacerated wound of leg. shock

In compliance with the law of the State of Maine I hereby submit my report to the town.

In submitting my report, closing remarks are not required by law

but, I believe it best to bring the true condition of the schools before the citizens of the town.

You will hear it said by some that education is becoming a fad, that one does not need so much education to get a living.

It is true one can get a living by doing that class of work where no skill and education is required; but who can look forward to that sort of life with any degree of pleasure?

We must remember the safety of our country to day, in a great measure rests upon the enlightenment of the people. So it stands every true American Citizen in hand, who has scholars to give to them the best possible education

I am sorry to note so little interest in this town for the welfare of education. Not one out of ten when asked what kind of a school they are having, or how their children are progressing, knows anything about it. Such ought not to be the condition. A teacher can interest and encourage to a certain extent and the remainder is for you to do at home. Why many children do not succeed better, is because they have no encouragement.

Encouragement is nourishment to the young mind. You fathers and mothers should not neglect this duty. As one of our writers has said, " 'Tis education that forms the common mind, just as the twig is bent the tree is inclined."

In conclusion I will say I realize that there are few in town who are dissatisfied with the schools this year. I can truly say that I have endeavored to secure cultured and experienced teachers, and have advised for the best, according to my best judgement, that I have endeavored to give to each scholar equal opportunities throughout the town.

Suggestions for the Good of the Schools.

I advise that the town should make the following changes in text books, geographies and grammars.

Why I advise this change, the geographies are badly to pieces, many of them the lessons are gone, and if we purchase new copies to replace the old, another year we would be obliged to purchase more copies and this would be the condition year after year.

The grammars are badly worn and the scholars in every case report they cannot understand the text, and the teachers in every case report they cannot teach the grammar so the scholars can understand them, so a change should be made.

The school committee should see that each school house is banked

and the outer buildings be kept in a better state of conditions.

I also advise in a few cases that new stoves be purchased and dampers be placed in the funnels of the different school houses in town.

Report of Superintendent of Schools and School Committee.

Resources.

Balance from last year.....	\$289 46	
Received from town	1,000 00	
Received from State.....	636 81	
	<hr/>	
Total		\$1,926 27

Expenditures.

Paid for teachers' wages	\$966 75	
Paid for teachers' board.....	356 70	
Paid for conveying pupils.....	295 50	
Paid for janitor services	56 10	
Paid for fuel.....	77 25	
Paid for tuition.....	7 45	
	<hr/>	
Total		\$1,759 75
		<hr/>
Balance.....		\$166 52

Free High School.

Amt. appropriated by town.....	\$150 00	
Amt. due from state.....	161 00	
	<hr/>	
Total		\$311 00

Expenditures.

Paid for teachers wages.....	\$161 00	
Paid for teacher's board	56 00	
	<hr/>	
Total		\$217 00
		<hr/>
Balance		\$94 00

Text Books.

Amt. appropriated by town	\$200 00	
	<hr/>	\$200 00
Paid for text books	\$160 19	
	<hr/>	\$160 19
Balance		\$39 81

Repairs.

Amt. appropriated by the town	\$150 00	
		\$150 00
Paid for repairs	\$151 35	
Paid for miscellaneous	4 40	
	<hr/>	\$155 75
Overdrawn		\$5 75

I would recommend that the town should make the following appropriations for the ensuing year:

Common schools	\$1,500 00
Free High school	350 00
Text books	200 00

For Repairs.

A sufficient amount to shingle schoolhouse in district No. 4, and place a new floor in schoolhouse No. 2, and to purchase seven new chairs, suitable for schools.

ALBERT C. HIGGINS, Supt. of Schools

Approved by School Committee, } E. B. BESSE,
C. E. MEADER.

Report of the Board of Health.

The local Board of Health hereby submits the following report for the year 1906-7. Four regular meetings have been attended by members of the board the past year as the law requires.

The town has been unusually free from contagious or infectious diseases.

The following is a list of the deaths, with the date, age and cause of death.

Deaths in Albion, 1906.

Date	Name	Age			Cause of Death
		yrs.	mos.	dys.	
1906					
Jan. 28	Nathan Davis	80	1	9	Uraemia from Hypertrophy of Prostate Gland
Feb. 10	Mary A. Goodhue	96	4	10	Old age
May 3	Susan C. Baker	82	3	16	Hemiplegia from Apoplexy
Apr. 1	Herbert Ritch	1	6	25	Acute Bronchitis and Convulsions

Remarks.

We feel that the schools for the past year have been a success. We have succeeded in getting good teachers who have given almost perfect satisfaction in every case. There is a little loss of time on account of hap hazzard work. Children in not a few cases are determined to study studies which their age and ability does not guarantee the best success.

For that reason I will recommend this course of study for our rural schools and I hope our Superintendent and School Committee will see fit to adopt it.

COURSE OF STUDY FOR THE RURAL SCHOOLS OF ALBION.

Spring Term.

C CLASS.

Reading, Fourth Reader
Arithmetic, Common Fractions.
Geography, North America.
Grammar (Begin).
History (Primary) parts I and II.

B CLASS.

Reading, Fifth Reader.
Arithmetic, Measurements.

Report of the Board of Health.

The local Board of Health hereby submits the following report for the year 1906-7. Four regular meetings have been attended by members of the board the past year as the law requires.

The town has been unusually free from contagious or infectious diseases.

The following is a list of the deaths, with the date, age and cause of death.

Deaths in Albion, 1906.

Date 1906	Name	Age			Cause of Death
		yrs.	mos.	dys.	
Jan. 28	Nathan Davis	80	1	9	Uraemia from Hypertrophy of Prostate Gland
Feb. 10	Mary A. Goodhue	96	4	10	Old age
May 3	Susan C. Baker	82	3	16	Hemiplegia from Apoplexy
Apr. 1	Herbert Ritch	1	6	25	Acute Bronchitis and Convulsions
Apr. 16	Ann M. Norton	78	8	5	Fibroid Phthisis

Remarks.

We feel that the schools for the past year have been a success. We have succeeded in getting good teachers who have given almost perfect satisfaction in every case. There is a little loss of time on account of hap hazard work. Children in not a few cases are determined to study studies which their age and ability does not guarantee the best success.

For that reason I will recommend this course of study for our rural schools and I hope our Superintendent and School Committee will see fit to adopt it.

COURSE OF STUDY FOR THE RURAL SCHOOLS OF ALBION.

Spring Term.

C CLASS.

Reading, Fourth Reader
Arithmetic, Common Fractions.
Geography, North America.
Grammar (Begin).
History (Primary) parts I and II.

B CLASS.

REPORT OF ROAD COMMISSIONERS.

Amount appropriated.....	\$1,000 00
Expended for plank.....	56 93
Expended for cedar....	7 75
Expended for repairs on road machine....	13 42
Expended for tools.....	7 65
Expended for cutting bushes.	75 00

I would suggest that the town raise \$100.00 to be expended the coming summer in clearing the roadside of bushes, also that the town raise \$1,400.00 for highways and bridges.

In conclusion, I feel grateful for the help and good will shown me the past year, and I have tried hard to meet your expectations. If I have not accomplished it, it has been an error of the head and not of the heart, for I have endeavored to do uniform and equal justice to all. I ask you one and all to look upon my efforts with a kindly eye, remembering it is easier to plan than execute.

Respectfully submitted,

E. W. HUSSEY, Road Commissioner.

REPORT OF THE BOARD OF HEALTH.

The Board of Health have attended to all duties required of them the past year and hereby submit the following brief report.

As the law requires, we have held regular meetings during the year which have all been attended by the full Board.

The town has been comparatively free from contagious and infectious diseases during the year—only one nuisance and one mild case of measles were reported to the board, which after due investigation were found to be nothing very serious; and as far as is known to the Board there are no contagious diseases or epidemics prevailing at the present time.

A list of the deaths, their cause, etc., will be found in the report of the Town Clerk.

WM. A. VARNEY, Secretary of Board of Health.

REPORT OF SUPERINTENDING SCHOOL COMMITTEE

Amount raised by town for fuel, repairs and supplies.....	\$ 300 00	
Overdrawn last year.....	20 47

REMARKS.

Fellow Citizens :—

Another school year has closed. It is my duty to report to you the result of the year's work.

The schools during the year have been successful. We have in no case hired incompetent teachers. If in any case there has been dissatisfaction, I am inclined to think it was more the parents fault than the teachers. Parents who uphold their children in disregarding the common requirements of good manners and propriety, are in error far beyond their comprehension. In case of difference of opinion between teacher and pupil, it is safe to assume the teacher correct and the pupil in error.

A hearty co-operation of all is essential to success and such has been the case in almost every school in town.

Good schools are the gateway to progress, prosperity and power and the best security for the liberty and independence of the people.

Many of the parents in Albion seem desirous of giving their children the best education within their means, and our scholars are manifesting a laudible ambition to become good scholars, and it is our duty as a town to use our best efforts to assist them.

That knowledge is power is true of a nation, a state, and an individual, and we should strive to elevate the standard and increase the efficiency of our common schools which are the nursery of all education.

HIGH SCHOOL.

The town is wise in maintaining a high school. It should be continued as it is a necessity and is successful. There are sufficient reasons why every citizen of the town should be an earnest advocate of it as a permanent part of our school system; those who have no interest in such a school should realize that without it we must by law pay the tuition of all scholars from this town, who attend approved schools of standard grade in other towns, to the extent of thirty dollars per scholar per year.

Without such a school here the result would be that we should pay out more money for tuition than it costs us to maintain our school.

We thank all who have assisted in any way for the good of our schools.

A. O. HALL, Supt. of Schools.

I would recommend that the following amounts be appropriated for the ensuing year :

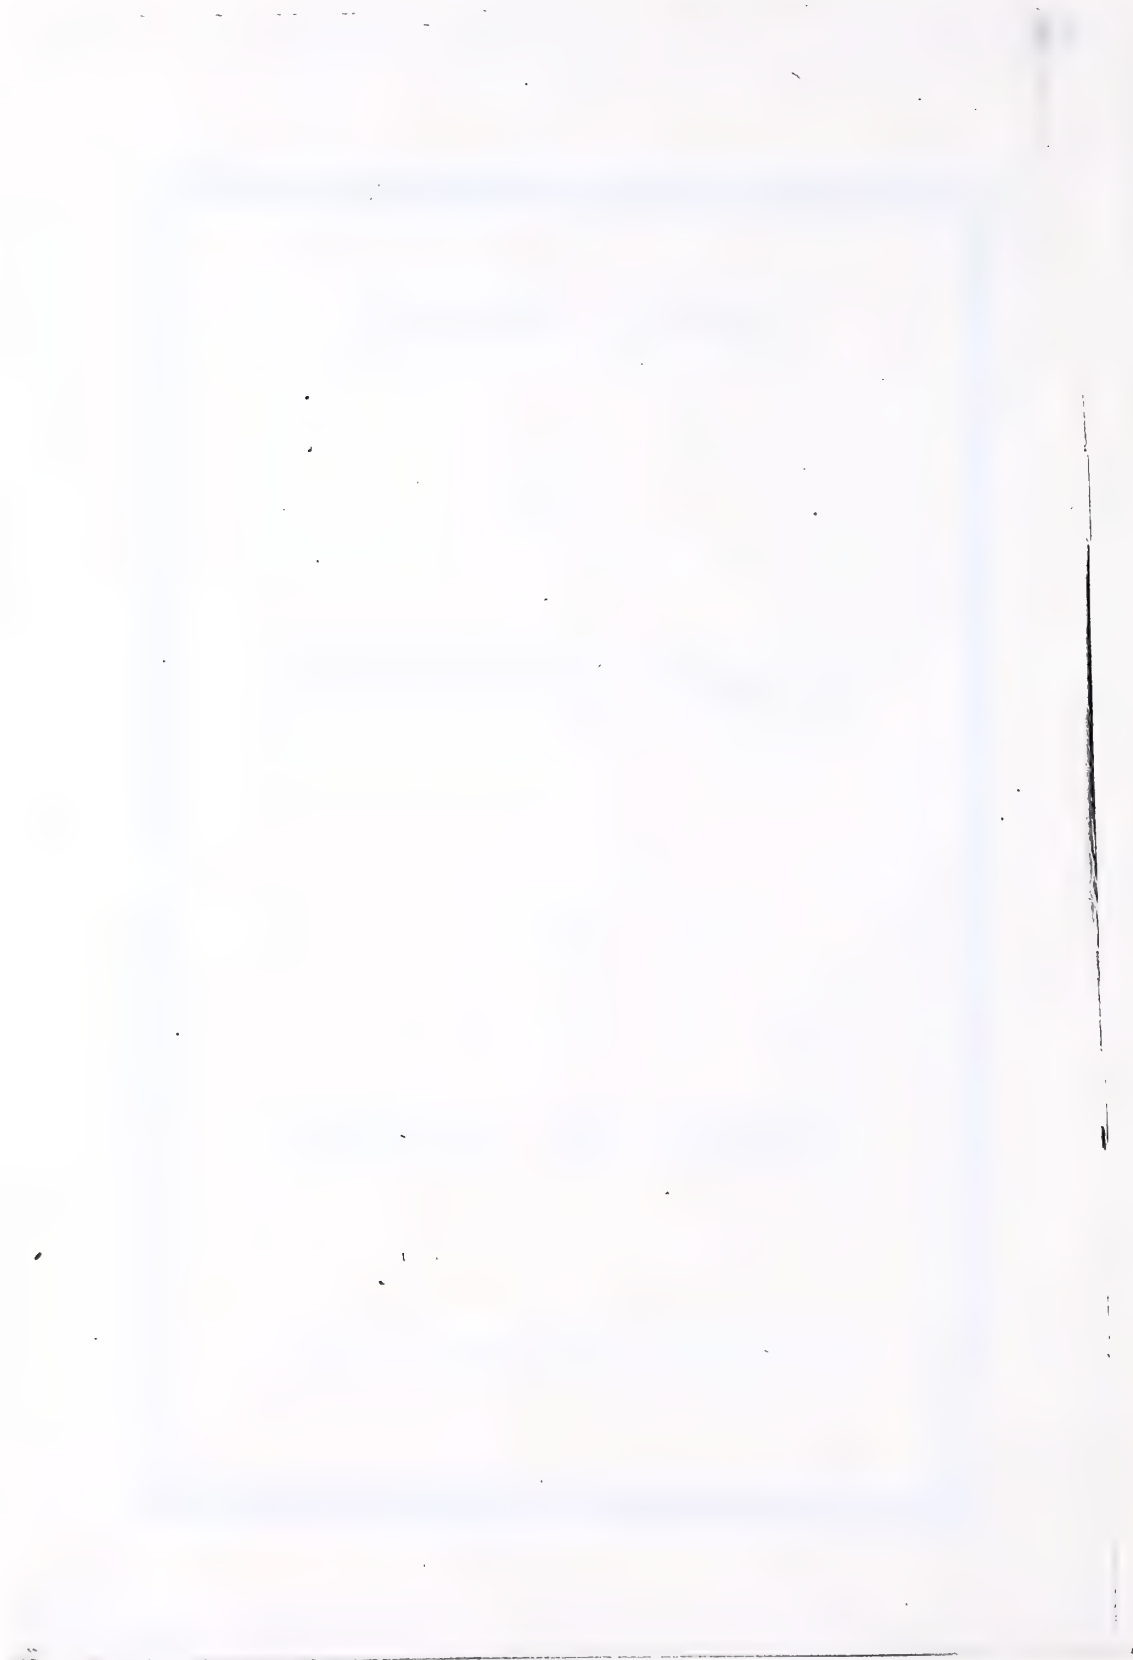

Common schools.....	\$1,500 00
High school.....	650 00
Fuel.....	125 00
Repairs on school houses.....	200 00

REPORT OF THE BOARD OF HEALTH

The Local Board of Health of the town of Albion have only this to say for the year ending March 1st., 1909.

The law makes it the duty of the Board of Health to hold at least four meetings each year for the transaction of all business that may come before them, or that may require their attention. We have held four meetings, called by the Chairman, all of which were attended by the full Board.

At some of these meetings as our records will show there would be nothing reported to the Board that would justify any action on our part, and we could only adjourn, and hold ourselves in readiness to act when called upon for further service.

Another year our town has been favored beyond many others, as it has been comparatively free from contagious diseases, epidemics, nuisances, etc. A few cases of an infectious disease were reported to the Board, which were duly investigated and attended to in a manner that seemed to us right and proper.

The deaths resulting from different causes will be found as usual in the Report of the Town Clerk.

REMARKS

FELLOW CITIZENS:—

In accordance with the requirements of the law, I respectfully submit the following report of the condition and progress of the schools of Albion.

Expense has been the chief criticism against our school management for the past few years.

In self defence I will ask you to compare, very carefully, the expense of running your own, or any other business with that of those of former days.

I will also invite you to visit our schools and compare the average scholarship of our pupils and teachers with those of years gone by.

I will admit that in the past, a few, owing to perseverance and mother wit, attained a high standard of scholarship. But as a rule the average of those days did not profit much by their school privileges.

Education of today has a different phase of life than in the past. It meant in the past the working of hard problems in Arithmetic and Algebra which was time almost entirely thrown away. It means today the broadest and fullest development of the human intellect; so that man may see and understand all the good things in life which surround him, that he may get the most out of life.

You may ask, "Why does it cost more to support our schools than in our adjoining towns?"

I will say in reply, that we have hired a higher grade of teachers.

I am sorry to say we have been obliged to have in town for the past year eighteen different teachers. Of course, a change in teachers means to a certain extent a loss of time, and this must be avoided as much as possible.

This loss has been pretty well covered by hiring competent teachers.

During the year we have had eight Normal graduates, seven Freedom Academy graduates, two of whom have attended Colby College two years. One a graduate of Waterville High. The other two having attended other good schools and are competent teachers.

I find by looking over the State school report that no town in Maine excepting Bangor, has held so high a per cent of graduates, and our average wages are less than the average for the State.

Our teachers are and should be, models from whom our pupils almost unconsciously shape their thoughts, ways and character. How important it is for us to put before them only the best.

There is no profession or trade that I know of where the difference between skilled and unskilled is so marked as it is in teaching.

A breeder of fine, registered stock, would not think of paying less than \$100 per month for a skilled and competent man to teach and care for those animals.

Why pay only \$35 or \$40 for a teacher for your children.

I am in favor of district supervision of schools, but will not take time to speak further on the subject.

I thank the citizens, and especially the school committee for their kind and able assistance in the school work for the past year.

Very respectfully,

A O HALL,

Supt. of Schools

I would recommend that the following amounts be appropriated for the ensuing year:

Common schools.....	\$1500 00
High school.....	400 00
Fuel.....	125 00
Repairs on schoolhouses.....	100 00
Text-books and supplies.....	200 00

G. R. Farris	65
Daniel Webster Est. of	1 95

MILTON CHALMERS, *Collector.*

REPORT OF THE BOARD OF HEALTH.

The local Board of Health hereby submit the following brief report.

We have held four regular meetings as the law requires for the transaction of business, to receive and examine into the nature of complaints made by any of the inhabitants, concerning nuisances dangerous to life and health within the limits of its jurisdiction and here we wish to say that it sometimes occurs that a complaint will be made to the Board of Health, and they are asked to do things that do not properly or lawfully come under their jurisdiction.

In all such cases we have always cheerfully and willingly given all necessary information concerning the subject under consideration.

The town has not been wholly free from disease and epidemics the past year. Eight or more cases of typhoid fever have occurred and whooping cough has prevailed to some extent in a part of the town. We believe no deaths have occurred from either.

In cases of typhoid fever as far as we have investigated we found the attending physicians were directing the care of the patients in a proper manner to prevent contagion.

Two houses have been disinfected as a prevention against tuberculosis.

For list of deaths, causes, etc., see Report of Town Clerk.

WM. A. VARNEY,

Secretary.

REPORT OF THE SUPERINTENDING SCHOOL COMMITTEE.

C. E. MEADER,
R. H. BLAKE,

School Committee.

REPORT OF THE SUPERINTENDENT.

To the School Committee of the Town of Albion:

I have the honor to submit herewith, my first annual report as superintendent of the schools of Albion.

In making this report it is pleasant to record the work done in the schools as being on the whole of excellent quality.

During the year we have employed only competent teachers, eight of which were normal teachers. I believe that every teacher has worked hard for the interest of the children in her school and that she has done her best to make her school a success.

I think that everyone realizes the importance of retaining our teachers for at least a year, provided of course, that they prove competent. Owing to the late date of my election last spring it was impossible to find experienced teachers for all the schools who would agree to teach for the year.

The Teachers' Convention which was held at Unity was attended by nearly every teacher in the district. The program was very interesting and helpful.

PROGRAM.

Paper,	Methods of Teaching History.	Clara Delano
General discussion.		
Paper,	Reading in Primary Grades.	Edna Ferren

We have introduced a course of study into all of the schools. This course requires each pupil to do a certain amount of work in geography, history, spelling, reading, arithmetic, penmanship and physiology each week so that at the end of the school year he knows just what work he has done and where he may begin work the next year.

Our high school is certainly proving itself a success. We had a graduating class last spring that would have been a credit to a much older and larger high school. This year we have over twenty students, all of whom are doing excellent work. Next fall we shall have an entering class of ten or twelve. I believe that our high school should receive the support of every citizen for it means a great deal to the boys and girls who have graduated from the common schools.

In closing, I am glad to acknowledge my obligation to the school committee for its aid and support, and to the parents who have taken pains to show an interest in the work of the schools and have in this way helped to make them a success.

Respectfully submitted,

CHANDLER A. STETSON.

TOWN CLERK'S REPORT OF THE TOWN OF
ALBION, MAINE, FOR THE YEAR, 1909.

RECORD OF MARRIAGES IN THE TOWN OF ALBION FOR THE
YEAR, 1909.

Jan. 27, 1909, D. C. Webster, Lenora Buzzell.

Real estate bought by town for taxes, tax and cost of sale	20.12

MILTON CHALMERS, *Collector.*

REPORT OF THE BOARD OF HEALTH.

The local board of health herewith submit the following brief report:

As the law requires we have held four regular meetings for the transaction of business, to receive, investigate, and examine into the nature of all complaints made by any of the inhabitants of the town, concerning contagious or infectious diseases, nuisances or anything dangerous to life and health.

It was found necessary during the year to quarantine a number of families on account of scarlet fever, and to guard against contagion we also fumigated eight infected houses; they are as follows: The houses occupied by E. D. Rich, T. M. Sanborn, Mrs. Whitten, W. P. Plummer, Alston Crommett, C. S. Billings, G. G. Hanscom, and schoolhouse in Dist. No. 4 and its contents.

WM. A. VARNEY, *Secretary.*

R. H. BLAKE,

E. A. BESSE,

School Committee.

REPORT OF THE SUPERINTENDENT.

To the School Committee of the Town of Albion:

In compliance with the requirements of the law, I herewith submit my second annual report as superintendent of the schools of Albion.

During the past year, the schools have, on the whole been very satisfactory. The teachers have worked hard for the welfare of their schools and the pupils have made good progress in their studies. The attendance in the village schools has been fine. The rural schools have been somewhat broken up this winter term on account of sickness. We shall have these schools make up the lost time during the next school year.

Our high school is in excellent condition. We have enrolled over thirty students all of whom are doing fine work. We have provided excellent text books and suitable laboratory equipment. Upon the recommendation of the state inspector, the school has been approved by the state superintendent of schools and placed in the highest class of high schools.

The chief expense in maintaining the school the next three or four years will be for teachers' salaries.

The text book account remains overdrawn owing to the fact that we purchased in large quantity of lithoplate blackboards and slate cloth for covering old blackboards. We now have good boards in nearly every school. The text books are in very

good condition and the expenditure next year for books will be much less.

I will explain the tuition item under expenditures for common schools. The town was unable to collect about thirty-three dollars of the tuition money credited to the common schools in the report of the school committee for the years 1907-1908. About seven dollars of the tuition money credited in the school report of 1909 could not be collected.

I wish to take this opportunity to thank the school committee for its able support, and the parents, who have in many ways contributed most helpfully toward the wellbeing of the schools.

Respectfully submitted,

CHANDLER A. STETSON.

TOWN CLERK'S REPORT FOR THE YEAR 1910,
ALBION, MAINE.

RECORD OF MARRIAGES IN THE TOWN OF ALBION FOR THE

MILTON CHALMERS,

Collector.

REPORT OF THE BOARD OF HEALTH.

The local board of health herewith submit the following brief report.

As the law requires we have held four regular meetings for the transaction of business, to receive, investigate, and examine into the nature of all complaints made by any of the inhabitants of the town concerning contagious or infectious diseases, nuisances or anything dangerous to life and health.

There has been no contagious diseases reported. It was found necessary to fumigate the Erastus Shorey house and the house of T. M. Sanborn.

C. B. LITTLEFIELD,

Secretary.

REPORT OF S. S. COMMITTEE.

COMMON SCHOOLS.

RESOURCES.

		\$150 00
Expended	\$157 15	
Overdrawn 1910-11	38	
		<hr/>
		\$157 53
		<hr/>
Overdrawn ..		\$7 53

We would respectfully recommend the following appropriations for the coming year:

Common schools	\$800 00
Text-books	250 00
Repairs and supplies	250 00
High school	450 00
Laboratory	15 00

Our reason in asking an appropriation of \$250.00 for text-books is that we have discovered two old bills running back to 1907, amounting to over one hundred dollars, which will have to be paid this year.

We have two schoolhouses that must be thoroughly repaired which will require an expenditure of approximately \$250.00.

Respectfully submitted,

R. H. BLAKE,
E. A. BESSEY,
C. E. WILSON,

Committee.

REPORT OF SUPERINTENDENT OF SCHOOLS.

I herewith submit my first report as superintendent of schools, covering the past five months. Beginning my work as I did about the middle of the fall term, and not being acquainted with the schools, it took me some time to familiarize myself with the work. You had an excellent corps of teachers employed for the fall term, and all were employed to continue during the winter term.

I have found your schools to be in a very satisfactory condition, well organized and doing good work. The school buildings are in good repair with the exception of two, that need some extensive repairs.

The condition of the schools and school buildings show that the schools have been well supervised for some time past, also that the town has been very generous in its appropriations and general support. The text-books, however, are badly mixed, there being too many kinds on each subject. In order to have the pupils throughout the town equally prepared to enter the High school they should have access to the same text-books. It would also be less expensive to the town.

I would very strongly recommend the re-opening of the school situated in the Crosby neighborhood.

The grammar and primary schools at the Corner are somewhat congested, there being too many pupils to admit of any individual work on the part of the teachers. By lessening the number of pupils you could do away with the services of an assistant teacher and also save the expense of transporting the pupils from that neighborhood.

The town really needs, and should have a four-room school building at the Corner, with a basement wherein you could house your primary, intermediate, grammar, and High school, and supply them with furnace heat. The citizens of Albion should take this matter under advisement and be prepared to act at some future time.

During the month of January we held an exhibit of school work at the Grange hall, composed of work done by the several schools of the town.

Those who were fortunate enough to see the exhibit expressed themselves as being both surprised and greatly pleased

with the work. These kindly words were greatly appreciated by both teachers and pupils, thus encouraging them to more and better work. I wish to say, it has been a pleasure to work in the schools of Albion, and I want to thank all who have supported and assisted me by their kindly advice and interest manifest.

Respectfully submitted,

D. V. ROLLINS,
Superintendent.

TOWN CLERK'S REPORT FOR THE YEAR 1911,
ALBION, MAINE.

RECORD OF BIRTHS IN THE TOWN OF ALBION FOR THE YEAR
1911.

Feb. 5, 1911, Lawrence A. Coffin.

Signed

E. A. BESSEY,
CHAS. E. WILSON,
W. F. SENNETT,
S. S. Com.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the S. S. Com. and Citizens of Albion:

I herewith submit my second annual report as Superintendent of schools of the town of Albion. I am pleased to report: The pupils have been doing excellent work in most, if not all the schools. There seems to be an increased interest on the part of the pupils to do better and more thorough work. This condition is due to a great extent to the very efficient corps of teachers employed during the year. Some of the schools have done exceedingly good work among which I wish to especially mention the Primary and Grammar schools at the Corner; also the Quaker Hill and McDonald schools.

The attendance at all the schools have been above the average for the year.

We have placed a complete set of arithmetics in all the schools. These books are practical and take up practical work throughout the different processes.

We have also placed a new system of writing known as the Palmer method; this is not altogether new but is a resumption of the old muscular movement, combined with the style taught in our commercial schools; but the manner of teaching is altogether new. The results have not been as satisfactory as I expected, still the pupils have nearly all mastered the correct position and movement, and are in a position to do good work during the coming year.

The pupils have devoted considerable time to composition work including letter writing, mental or oral work in Arithmetic, and English in particular. Our hobby is to teach the children to do more practical work and to be thorough in the details. The work of the pupils has been very satisfactory, with the possible exception of one school.

As the law requires I have caused 181 pupils to be examined as to their eyesight and hearing; 17 were found to be defective in eyesight and one in hearing. The parents have been notified and it is hoped and expected they will have the eyes of their children properly fitted to glasses.

The town is certainly to be congratulated upon the assurance of having so fine a building in which to house their children. I hope the boys and girls will appreciate to the fullest extent the generosity of their benefactor, Mr. Frank Bessey, and so conduct and apply themselves in such a manner that he will have no cause to regret his magnificent gift to them.

Your high school is now established on a good firm foundation. You have an excellent corps of teachers who thoroughly understand their business and who are trying to increase the efficiency of the school.

The time is now here when graduates from a Class A. high school may enter the state university without further examination.

There are certain requirements made by the state, however, which must be fulfilled before they are allowed to graduate.

I have worked for what I considered the best interest of the town, and endeavored to inculcate into the minds of the boys and girls the necessity of exerting themselves to gain an education, and a position in life that their parents and the townspeople may point to with pride in after years. I consider the education of our youth to be the chief and most important duty, with which we have to deal, and we should make it our one business to perform this duty as thoroughly as possible.

Among the recommendations I would like to make for the different schools are as follows: The placing of new seats in the Bessey Ridge, Davis, and No. 4 schoolhouses.

District No. 4 should have new windows or the old ones reglazed.

Quaker Hill school needs new blackboard and window lights reset in the front of the building.

Tilton school needs maps, globe and a dictionary; also about 4 yards of blackboard.

Along the line of text-books I would suggest the purchasing of a set of beginners' histories for 4 and 5 grade work. A complete new set of geographies and a few sets of historical and geographical readers to be used as supplementary work.

I sincerely hope the good people of Albion will see to it that Albion remains in the Union of towns and that progression will

ever be your watch word. The committee and the better element of both Thorndike and Unity are unitedly strongly in favor of maintaining the Union.

I wish to extend to the committee my sincere thanks for their loyalty and support; also to the many citizens for their kind words and courtesies extended.

Respectfully submitted,

D. V. ROLLINS.

Feb. 15, 1913.

REPORT OF BOARD OF HEALTH.

The local board of health of the town of Albion respectfully submit the following report for the year ending March 1st, 1914.

As the law requires, the board has held its regular meetings during the year.

No contagious diseases, epidemics or nuisances were reported for the year.

C. B. LITTLEFIELD,
Secretary.

REPORT OF S. S. COMMITTEE.

To the Citizens of Albion:

We beg leave to submit the following, the report on the finances of these schools. When we made our recommendations, as to the appropriations last spring, we realized we would require more money than in the past, but of course could not estimate with any accuracy, the expense in fuel, etc., connected with the new building. It was necessary to create a new school, the Intermediate, which added considerably to the expense.

In our recommendations this year we have carefully estimated the probable expense after making allowances for the overdrawn which was necessary last year and which will have to be made up this year.

RECEIPTS.

Unexpended 1912	\$134 72

High school	800 00	
Library of reference books	100 00	

Respectfully submitted,

C. E. WILSON,
W. G. SENNETT,
E. A. BESSEY,
Committee.

Superintendent of Schools Report

To the S. S. C. and Citizens of Albion:

I herewith submit my third annual report of the conditions of the schools of Albion. It is with a great deal of satisfaction that I view the schools now, to what they were when I began the work among you. Of course the great advance was made during the past year. The erection of our splendid new building in which to house our grades and High school was the principal thing in the way of progress.

The seats and blackboards which could not be placed in the new building were used in the rural buildings, displacing some of the old board seats of 75 or 100 years ago. Your rural buildings are all fitted up with sanitary seats and with good blackboards. We have maintained 30 weeks of school in all schools excepting the Tilton, which it was found necessary to close at the end of 28 weeks. Your High school is as good a school as are any in the State of the same size. The pupils have about everything they need to work with, with the exception of a good reference library, which I trust the good people of Albion will have placed at their disposal. The laboratory is as good as you will find in many of the large cities.

Seven are graduated last spring from the grammar schools and entered work in the High school last September. There are enlisted in the different years as follows: Seniors, 10; Juniors, 3; sophomores, 14; Freshmen, 9, including two tuition scholars from out of town.

The school, under its principal, John C. Parlin and his able assistant, Miss Blanche Glover, is bound to progress and be one you will point to and speak of with pride.

You have had a very good corps of teachers in the grades and the rural schools. The attendance has not been as good as we wished it might. Below is a form showing the whole number of scholars registered in the different schools and the average attendance.

W. L. DAVIS, *Collector.*

REPORT OF BOARD OF HEALTH.

The local board of health of the town of Albion respectfully submit the following report for the year ending March 1st, 1915.

As the law requires, the board has held its regular meetings.

No contagious disease or epidemics were reported during the year, but it was found necessary to fumigate two houses.

G. B. PRAY,
Secretary.

	<hr/>	\$173 00
Expended		135 63
	<hr/>	
Unexpended		\$37 37

LABORATORY.

Town Raised	\$100 00
Expended	83 84
<hr/>	
Unexpended	16 16

REFERENCE LIBRARY.

Town Raised	\$100 00
Expended	100 00
We recommend the following appropriations:	
Common Schools	\$1,700 00
Text-Books	185 00
Repairs and Supplies.....	150 00
Laboratory	85 00
High School	900 00
Reference Books	50 00

Respectfully submitted,

W. F. SENNETT,
E. A. BESSEY,
A. O. HALL,

Committee.

Report of the Superintendent of Schools

To the Superintending School Committee and Citizens of Albion:

I herewith submit a report for the part of the year during which I have served as Superintendent.

While we cannot point to any great advancement in school work yet we believe the schools are fully up to the standard of one year ago, and that the teachers employed have, on the whole, labored faithfully for the best interests of their pupils.

An average of thirty weeks has been maintained in all schools and we hope the appropriation will be generous enough to equal or exceed that number of weeks for the coming year.

Believing that the citizens are entitled at all times, to know the exact financial standing of the town we have made it a practice of presenting all bills to the School Committee as soon as due so at the present time there are no outstanding bills; this of course makes the amounts expended in the various departments larger this year as many bills unreported last year have been paid.

The work in manual training has been discontinued. Lack of equipment, trained teachers, and time all tending to make it unprofitable. But we believe some system of giving pupils school credit for work done in the home could be profitably arranged, thereby encouraging the pupils and bringing school and home in closer contact.

We have heard so many favorable comments not only from citizens of our own town but from other towns as well, that it seems hardly necessary to say that we believe our high school is one of the best of village high schools. During the last two terms there were six tuition pupils.

A reference library has been started and we trust that a small appropriation will be made this year to add a few more books that are really needed.

The average attendance in the grades has not been as good as it should be and parents should realize the fact that if their children are not regular in attendance they are losing much of the benefit of the school.

Below will be found a table giving the names of teachers employed and wages paid per week in the different schools:

Salary per week

REPORT OF BOARD OF HEALTH

The local board of health of the town of Albion respectfully submits the following report for the year ending March 1st, 1916.

As the law requires, the board has held its regular

meetings.

No contagious disease or epidemics were reported during the year, but it was found necessary to fumigate one house.

G. B. PRAY
Secretary

Laboratory	75 00
High school	1150 00

Report of Superintendent of Schools

It gives me pleasure to submit a report for a part of the year I have served as your superintendent of schools.

We have struck a blow at the old traditional 30 weeks for the common schools, making our common schools 32 weeks in length, thus more nearly equalizing the common school year with that of the high school which is 36 weeks.

The state superintendent of schools has given us a very fair and just distribution of the equalization fund, both for maps for rural schools and support of common schools, which fund we may lose next year if we cut down our appropriations too much.

If we have any money left unexpended in the common school fund let us have it for lengthening the rural school year.

We won't waste it, you may be sure.

At the beginning of my term I was hindered somewhat by the careless, unsystematic, unbusinesslike way in which the school affairs were left by my immediate predecessor.

Our rural schools are in good condition and the past winter term conditions have been satisfactory in every school.

Our high school is giving a quality of instruction second to none in the state and our teachers are working without looking at the clock.

Possibly there might be one or two changes made in the high school curriculum to advantage.

I should like to eliminate the overdraw for high school which has been handed down from year to year, to me.

Counting every boy and girl worth \$3,000 at maturity we have a potential investment of \$573,000 in town which represents one of the best assets we have.

To comply with the law and satisfy our own patriotism this year we shall have to make a slight appropriation for display of the American flag on some school buildings.

Our grammar room is the smallest room in the new building and if all our intermediate pupils pass, our grammar room next year will be overtaxed by 4 at our present seating capacity.

More than passing mention should be made of the generosity of Mr. Frank L. Besse, who has again come to the front with a new stone sink for our high school laboratory.

If the schools have succeeded in performing their reason to be, due credit should be given to the teachers as well as the school board who have given freely of their time for the schools

It is my ambition to conduct the town's business as I would my own and it has been a pleasure for me to work in the town of Albion.

I am appending some school statistics for your consideration.

Respectfully submitted,
ARTHUR IRISH.

TABLE OF EXPENDITURES FOR SCHOOLS

<i>Year</i>	<i>High Sch.</i>	<i>Com. Sch.</i>	<i>Text Bks.</i>	<i>Repairs</i>
1910	\$765 00	\$2174 50	\$213 13	\$68 23

1914	1290 80	3223 48	284 67	187 39
1915	1687 93	3506 86	187 31	135 63

Rural School Betterment.

No man should find it necessary to remove from his farm home to educate his children. A good system of rural schools is Maine's best aid to the development of Maine agriculture.

A Program of Improvement.

- The teacher:—** A properly qualified teacher—with adequate pay—for every country child.
- The building:—** A comfortable and attractive building, with proper heating, ventilation and lighting. Sanitary out-buildings kept clean and decent through daily inspection.
- The Grounds:—** Ample school grounds with plenty of space for play and some provision for school gardens.
- The equipment:—** A full supply of good textbooks in clean and wholesome condition. A few up-to-date maps, a globe, necessary reference books including dictionaries, a school library with books both for the school and the community and a few good pictures.
- The course of study:—** A reasonably, but not rigidly, classified or graded course of study, with adequate attention to the fundamentals, with large opportunities for hand work and with every possible connection between the experiences of the school and the actualities of life.
- Supervision:—** Expert supervision—made possible to all towns through the system of unions of towns with state aid.
- Community support and interest:—** The school building a social center, used under the leadership of teacher and superintendent to promote all the educational interests of the community.

The foregoing program is not radical. It involves only the fundamental points of a good school system. There is no reason why all these factors may not soon be realized by all communities as they are already realized by some. To accomplish them is the work of superintendents, teachers and public spirited citizens. Will You Help?

PAYSON SMITH,
State Superintendent of Public Schools.

FALL TERM PAY ROLL, ALBION

John C. Parlin, High School	\$20.83 per week

Quaker Hill	8

Above statistics are for winter term.

Superintendent and members of the School Board:

GENTLEMEN:

I Submit the following report of Besse High School.

So far the attendance has been higher than in any other year since I have held the principalship, 36, with an average of 35. In the matter of punctuality, this school surpasses all others that I have taught, and this is my hundredth term. During the fall term there were but nineteen instances of tardiness, and in most of the terms the number has been much below this. Seven pupils missed no session of the school.

The interest seems well sustained and the pupils, as a whole, are doing creditable work.

The chemical laboratory is now well supplied with both apparatus and chemicals. Of special interest is the new Fortin barometer just installed, which will

enable the students to make all necessary corrections for gas volume.

When the new sink, for which the town is again indebted to the generosity of Hon. F. L. Besse, is installed, we shall have a laboratory, the equal of which will be hard to find outside of the large schools. We should have some more physical apparatus before next year's work opens, and for this the town will undoubtedly provide amply at the annual meeting.

More reference books are needed, especially an up-to-date encyclopedia and books on modern history and civics and physics.

In the line of text books, the school is fairly well supplied, but some changes should be made, especially in civics, botany and Caesar. If Physical Geography and Commercial Geography are retained in the course of study, new books are an absolute need. The question might be raised whether it would not be well to substitute General Science for the English division, in place of a half year's work in each of those studies.

We have five tuition pupils and others have stated their intention of coming another year. The neighboring sections of Benton and Palermo, where no "A" high schools are maintained, might well be canvassed for this purpose.

The graduating class numbers nine.

While the teachers try to impress upon the pupils the need of keeping off the lawn, and they, as a whole, very readily and courteously respond to this appeal, it is rather discouraging to have the public drive teams, not only across the playgrounds, but even over the lawns and the concrete walks. I would recommend some action by the Board to prevent such trespass.

Another matter that would give teachers and pupils much satisfaction would be to have more parents visit us. We have no special visiting days, but are ready for inspection at all times.

Respectfully submitted,

JOHN C. PARLIN, *Prin.*

W. L. DAVIS, *Collector*

REPORT OF BOARD OF HEALTH

The local Board of Health of the town of Albion respectfully submits the following report for the year ending March 1, 1917.

As the law requires, the board has held its regular

meetings during the year.

No contagious diseases, epidemics or nuisances were reported for the year.

G. B. PRAY, *Secretary*

	Supt. of Schools	

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee:

I shall mention in this report only those events or changes which have occurred that have a direct bearing upon the future good of the schools. The congestion that has come about at the Besse building was quite apparent at the beginning of the year. Rather than have the pupils greatly inconvenienced I gave up the use of the office. This involved no great sacrifice on my part, but it sometimes renders it inconvenient for the parents who wish to consult the school officials and do not know where to find them. Should the public continue to demand that their children attend the Besse building there is no question but that, in that event, a one room, one story addition to the building, or a small one room building would be a great educational asset to our present equipment, which is a great credit to any town.

The untiring, faithful work of your High School Principal, Mr. Parlin, is too well known for me to comment further favorably upon it. Miss Olive Foristall, A. B. of Wellesley College, has done school work of such a high order as one would naturally expect of an honor graduate of a large college.

We have a substantial balance in our high school account this year and we propose to enlarge the usefulness of the school and still cut the appropriation for this department for the ensuing year. The cut here, the elimination of \$150, with another obliteration of

over \$200 for insurance and a reduction of the amount which we raised last year for reference books, namely \$100, will render unnecessary any general increase in the school tax rate.

The increased number of pupils at the village school, the demand upon the Committee for transportation, the short school year for common schools, seem to render it necessary that the appropriation for this department be raised to the amount recommended. I appeal to the voters to hold up their hands high in this department. There is no way in which we can keep taxes down better than by looking after the children.

The slight overdraw for text books and repairs was caused by the exigency of the Besse school situation and the trebling of paper costs.

PRESENT CONDITION OF SCHOOL PROPERTY

The number 4 schoolhouse is one of the worst looking schoolhouses in town. The exterior is in very poor condition. The out-buildings are very bad and the roof will soon have to be shingled. There is no provision for ventilation other than opening the windows. The system of cross lighting prevails.

The Quaker Hill school needs to be painted. The out-building here is not of the best.

Various repairs are necessary on the McDonald school. The stove is rather old and antiquated. Brand new doors would improve the looks of the building. The floor is considerably worn in places. One or two extra pillars are needed for the porch on the front.

A beginning has been made in regard to the law abolishing the common drinking cup. Some schools have their individual drinking cups for the pupils. Others have expressed a desire to help purchase a portable automatic drinking fountain.

A small amount of money spent for wood sheds for the schools that do not have any would be an advan-

tage.

In nearly all the schools no ventilation is provided for the pupils other than opening the windows. No one of the schools have jackets for the stoves for the inlet of fresh air.

Hardly any of the schools are complying with the state law regarding the display of the national flag.

The Grammar School and the Intermediate School are in need of map cases.

DEFINITE OPPORTUNITIES FOR SCHOOL IMPROVEMENT

I have an offer from the State that we go in with them and fix up the No. 4 school building. They have offered us \$125, provided we raise an amount sufficient to repair this building. Can we afford to lose this \$125?

A year and a half ago the State Superintendent appointed a committee to revise the State course of study. This will be available next year for an eighth grade system. We should keep this in range of our minds and if we can get our common school year gradually worked up in length, then possibly we might adopt the State course to our advantage.

An appropriation of \$35 would satisfy the spirit of the law requiring us to display national flag on school buildings.

The state department of education is making a determined stand for better school buildings. One of the changes that they propose for every rural school that has a box stove is an sheet iron jacket for the same providing for the inlet of fresh air. A home made affair costing about \$15 would do this. There is an exhaust for foul air into the chimney.

Albion is a town that has considerable civic pride. A stranger coming into town notices the good roads. Then the Besse High building gives us considerable opportunity for display of our school enthusiasm.

I am of the opinion that the town will continue the good work begun and continue to still further increase in value real estate and the desirability of Albion as a town to live in.

I am appending various statistics to my report.

Thanking pupils, parents, teachers, school and town officials for interest shown and favors extended.

Respectfully submitted,

ARTHUR IRISH,

Superintendent of Schools.

Report of Principal of High School

To the Superintendent and School Board,

Gentlemen:—

Your prinicpal has but a brief report. All schools in the building seem to be progressing satisfactorily, both in matters scholastic and disciplinary; my attention has been called to but few cases of the latter class, and these have been settled so far without harsh measures. I trust that such will continue to be the situation.

There should be somewhat closer oversight of the lower hallway during recess periods. Children left entirely to their own devices do not always observe all rules of proper decorum. No one person, even were he an experienced principal, can be all over a building at the same time. It will be only by the hearty co-operation of all that the deportment of our pupils, in school-room and out, will be what we most desire.

Of the crowded condition of the building you are as well aware as am I. If the present tendency continues, the time is not far distant when an additional wing, or, what would be far better, another building on the farther end of the lot for the lower grades will be imperative.

Some people have criticised the High School room, as being far too large for any possible use for this town. It is fitted with seats for fifty pupils; we have forty-three, leaving seven seats for recitation purposes,—but we have one class numbering eighteen! Fortunately this class is seated in the front part of the room.

This year also we have the greatest number of tuition pupils in our history; three from Benton, three from Unity, two from Freedom, one from Palermo.

The new edition of the International Encyclopedia has been added to our school library, and its almost constant use testifies to its need. The book-case purchased by the school is full and quarters should be provided for new books.

Before a new school year opens, some changes should be made in our curricula to meet new demands from the colleges.

I am glad to report that two members of last year's graduating class are teaching, one has entered the University of Maine, and two have taken steps to enter next year.

JOHN C. PARLIN, *Principal*

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town:

To report the work of this town as a whole is very gratifying. It would be impossible for me to give an authentic report of conditions underlying school activities in the brief time that I have worked with you. But one can feel the refining influence of wholesome school work and civic pride in general upon entering the town.

The school board was wise and fortunate to retain John C. Parlin as principal of Besse High. Mr. Parlin needs no praises of mine as you all know him so well. The vacancies in the building at the beginning of the year were efficiently filled by Miss Madeline Daggett, graduate of Colby, as assistant in the high school, Miss Emily Roseland in the grammar room and Miss Velma Byther in the primary room. The work in the entire building does credit to the beautiful building and to the community.

In the interest that naturally centers in this school the outlying schools must not be forgotten. These mixed grade schools demand as good teachers and equipment as the village school. Unless these schools are built up the high school will suffer. The present teachers in these schools, though for the most part with little or no experience, have done splendidly. Some of them have been handicapped for want of better blackboards, books and supplies.

A nine grade Course of Study has been prepared for the common schools to be used temporarily or until such time as the town can maintain thirty-six weeks of schooling and adopt the eight grade system using the State Course of Study. It is impossible for teachers to do grade work properly without a guide.

The out schools have been provided with Progressive Road to Reading in the lower grades. This system is used largely throughout the state and when taught properly, the children make rapid progress. No other changes in books have been possible. The large demand of the high school, the increase in price of books and sup-

plies, makes the seemingly good appropriation small. New arithmetics and later editions of histories and civics are needed. A few special books for desk copies would be helpful. By listing the books and providing mending tissue we hope to eliminate waste.

The No. 4 school house when completed by installing the proper heating system will be the best model one room school building in this vicinity. It was a disappointment to not receive aid through the equilization fund for its completion. A wood shed is needed at this school. Every schoolhouse should have a wood shed. Putting wood in the entry is disastrous to the wood work, paint, and when put in year after year, it tends to lower the sills of the building. It takes the children's coat room and makes an unsightly entrance. We wouldn't think of putting wood at our home front door. Why should not the school compare with the home. It is where the children spend the greater part of their time during the formative period of their lives.

The next year will be an unusually difficult year to meet the demands of the schools. It will be hard to secure teachers as so many will be called to more remunerative occupations. We must foresee this and make it an object for good teachers to stay with us. The schools are the foundation of our future democracy. While we must economize let it not be the "penny wise and pound foolish" variety.

Owing to the drop in attendance it was found necessary to close the Tilton school and transport to the village. This was a wise change not only for the pupils but from an economic standpoint.

PRESENT CONDITION OF SCHOOL PROPERTY AND RECOMMENDATIONS FOR IMPROVEMENT

The No. 4 schoolhouse should be completed. New doors are needed at the McDonald and the floors are badly worn. The stove is an antiquated type and very unsafe. Some of the houses need painting. A wood shed is needed at the Davis school.

The high school needs new texts in physics and civics. The present books are out of date. In order to have necessary books and supplies for the grade schools the appropriation for these must be larger for the coming year. Last year there was an appropriation of \$75 for laboratory and \$50 for reference books. For the

coming year I wish to recommend that we have no appropriation for these purposes but make the book and supply appropriation \$300 and \$35 for providing flags to meet the requirements of the law.

In closing I wish to thank all who have been connected with the schools for the kindness and courtesy which has been shown me.

Respectfully submitted,

NAOMI T. GRÉGOIRE,

Superintendent of Schools

Report of the High School Principal

To the Superintendent and School Board:

The past year of Besse High has been very quiet and uneventful, and there seems to have been very little to report.

The membership, or enrollment of the current year is the largest in the history of the school. During the fall term there were 51 students, including 11 tuition pupils, six from Benton, two from Freedom, one each from Unity, Palermo and China.

At the beginning of the winter term Miss Kelley of Freedom did not return, and at the close of its fourth week, Mr. Rood and Mr. Germon of Benton left the school; consequently the present enrollment is 48 with 8 tuition pupils.

The attendance has been maintained at its usual high standard. After the great January storm only two were absent.

The deportment, in a general way, of the pupils around the building during the noon hour has not been so satisfactory as in previous years; but I think that it is improving. One hundred fifty children of all ages, be they the best intentioned in the world, need careful supervision. There is a wide difference between liberty and license; otherwise we would need no laws for social protection. And surely it is the duty of us all to whom the supervision of the building and the pupils is intrusted to endeavor to impress upon the

latter the proper relation of "mine and thine." To embroil the younger ones in fights is no mark of manhood, and our young men must realize that

"It is good to have a giant's strength,
But it is tyrannous to use it like a giant."

I wish to call the attention of the Board to one crying need—the water supply. It is frozen, it has been frozen, I think, every winter, and will be frozen every winter, unless the pipe is laid lower. The children are thus deprived of drinking water, and the supply for use in the laboratory is cut off. This necessitates the bringing of all water that we use in the chemistry class from some neighbors house, as well as allowing pupils to annoy the said kind neighbor by calls for drinking water.

Another crying need is the lack of proper toilet accommodations for the boys. All that I will say is to ask any member of the Board, or citizen of the town, to visit the closet and give his candid opinion as to whether he considers it adapted to the use of all grades, and whether he would enjoy using it in common with the great number who are obliged to.

In regard to appropriations, I think that the school will do very well for the coming year without any expenditure for the reference library or for the laboratory; but I earnestly recommend that the amounts heretofore raised for these purposes be raised for maps and additional text books for the high school. We are without a single wall map or chart of any kind; and one who has tried to teach any branch of history without the correlation of geography well knows the need of such helps. Our text on Civics is far behind the times and should be changed; our text on Physics is too heavy for a secondary school, and should be replaced by one that can be covered by the class in a year's time, and still leave time for a proper amount of laboratory work. During the summer vacation, in accordance with suggestions from Dean Hart of the University of Maine, several changes were made in the courses of study which now meet every requirement for admission to the University. One of these was lengthening the time given to English History from one semester to a full year, as the colleges have decided to give no credit for less than a year's work on that subject.

Now, to make a year's work worth while, we need a book other

than the one which classes have been covering in one semester. Therefore I urge, for this year, that money be raised for these specific purposes.

I wish to thank you and the citizens in general for the many expressions of confidence and support that I have received during the past year.

Sincerely yours,
JOHN C. PARLIN, Principal.

EUGENE HUSSY,
FRED LITTLEFIELD,
CHARLES COFFIN,

Superintending School Committee.

Report of Superintendent of Schools

To the Superintending School Committee and Citizens of the Town:

As school officials are placed in a way to know the conditions and needs of the schools, a report of this kind should bring to the front in a brief way, the actual improvements of the schools with recommendations for further progress. I shall be very frank in my report, as I feel that the year is not bringing the results, as a whole, that we ought to expect.

We have had generous appropriations with which to work in every instance, except the book and supply account, to which I shall refer later. The high school has run in its usual way under the direction of Mr. Parlin. The new assistant is Miss Lillian Hurley, A. B., of Notre Dame College, Baltimore.

The law recently enacted provides that teachers can teach only seven periods instead of eight as our teachers are now doing. This brings the Class A schools to a one curriculum school or have a third teacher and introduce a third course of study. Without great expense we could introduce a home economics or possibly an agricultural course in Albion. The building is all right if the small room near the laboratory could be finished off. The State pays a good per cent. of the teacher's salary for these courses. It is in proportion to the time spent on the course.

We are getting under the new law for Secondary Equalization Fund, \$400. With this support for another year and the State Aid for vocational education, a new course could be introduced without burdening the town materially.

However, by conferring with the State department, I have found that we are not obliged to make this change this year in order to maintain our Class A school with two courses. But the schedule of work will have to combine somewhat in order for the teachers to teach only seven periods. I should like to see a beginning made this year, as it will inevitably come sometime.

A vote of thanks should be extended to Mr. Frank Besse of Clinton for installing the electric lights in the building.

This year we had an appropriation of \$2500. for common schools. Out of that appropriation \$1675.50 has been spent for conveyance. Seven schools of thirty weeks have been supported. In these seven schools there are one Normal graduate, and five teachers with only high school training. This does not reflect upon the teachers. They are all that we could expect. They are better than the wages paid them. The point is—are the schools to be run aground because of conveyance? The figures speak for themselves. Now, if the citizens of Albion demand so much conveyance and are able to support it, I am not the one to oppose it. But we do want enough money to support schools instead of conveyance alone. I frequently get a letter saying, "We know you are opposed to transportation." I am not opposed to reasonable transportation. But I believe parents should take some responsibility in the matter for the sake of a longer and better school year. It is wholly in the power of the school board to eliminate it, but no school board wants to go against the wishes of the majority of citizens.

From the common school Equalization Fund this town gets \$340. \$150 is for improving the teaching force in the rural schools. Before we can spend this money we must have teachers that have had some training and are approved by the State Superintendent.

The Improvement Leagues have done some good work. The Grammar room gave an entertainment for the purpose of equipping for hot lunch. The hot lunch was well started in that room when the school closed due to the epidemic.

Eventually I think a scheme can be worked out for the whole building, as the parents are so willing to co-operate in the matter. At No. 4 School a few new books were added to the library and a new bookcase purchased.

New physiologies were put into some of the schools, also new "Geographies of the War." The work was supplemented by a reader about the war "Lest We Forget." Here is where the appropriation fell short. An appropriation of \$300 was asked for last year. Instead we got \$200. \$300 was the minimum needed. Consequently, our books are in bad shape. In many instances children could not be provided with necessary books. Now, let's reason:—There are about 200 pupils, including high school students. A \$200 appropriation means an average of \$1.00 per pupil for year. How many new books can you buy for each pupil, say nothing of supplies, for 33⅓ cents? High school books are from \$1.00 to \$2.00 each. More physiologies, language books and arithmetics are needed. Dictionaries for individual use are needed. A new graded speller ought to come this year, as the old ones are just rags.

REPAIRS

The high school room can boast of a new steel ceiling. The lighting in the Davis building was changed to rear and left. There were some minor repairs at Quaker Hill. A much needed bubbling fountain was purchased through the equalization fund for the Village school.

For the coming year we have \$115 for building the out-house at the MacDonald school. The Grammar room should have a steel ceiling. More work should be done at the Davis, though the school should be temporarily suspended. This is too good a building to run down. The chances are that there will be a good school there sometime.

In closing I wish to thank all connected with the schools for a very pleasant school year.

Respectfully submitted,

NAOMI T. GREGOIRE.

PRINCIPAL'S REPORT

To the Superintendent and Citizens of Albion:

In making this, my seventh annual report, I am confronted by two difficulties, the paucity and the multiplicity of subjects that may be touched upon.

ATTENDANCE. Since the mortality that occurred early in the fall term, the attendance has been, as is customary, very good. On the first day of the school year we had 52 pupils, but from various causes the number soon dropped to 43, at which point it has remained. In my opinion, the most potent cause leading to this mortality is the lack of proper preparation. It is hardly to be expected that all pupils will make the same improvement under the same instruction. All physical systems do not assimilate the same food with the same ease. On the other hand, not all instructors can impart the same degree of proficiency.

Of the nine withdrawals, all but two were from the entering class. One of those two was due to homesickness, the other to ill health. Only two losses were from those entering from the grammar school; of these, one was caused by removal from town, the other by a lack of desire to continue the work. The other five were from those entering from the rural schools.

I can think of no better object lesson on behalf of the centralized school than this; no better argument for the properly trained teacher in the rural school,—look at which side of the question you may.

As the entering classes are made up of pupils of widely differing proficiency for taking up the work of the high school, it is not surprising that those who are poorly prepared become discouraged at the ability of the other group to outstrip them in the race. Let us give everyone the same chance.

SCHOOL-YEAR. This winter is one more argument for an early opening. While we are disappointed at the turn of events, we hope that, by teaching continuously for the remainder of the year and by making up one week on Saturdays and holidays, we can close on June 25 with the work all done.

EQUIPMENT. While the school in a general way is well equipped, we need some things to enable us to do better work. We do need maps! Good wall maps for the teaching of history are indispensable for good work.

Laboratory equipment is always being exhausted in some respects. Chemicals are being used; glassware breaks; new apparatus is wanted for some new experiments. Keep us on a footing where no backward steps will be necessary.

A compound microscope and a few good mounted slides, in addition to what we can prepare, will be a great help in maintaining interest in the science work. A student may be interested in learning facts about nature; if he can see those facts for himself, his interest is assured.

We all hope that, before chemistry is again the major science, the water pipes will be repaired, so that we can dispense with the water-pail as a source of supply.

SANITATION. Why discuss a negative quantity?

ATHLETICS. In behalf of the Athletic Association, I wish to thank the School Board for granting them three afternoons for the coming year; these are to be taken at their pleasure in either the spring or fall terms, after this lost time has been made up. My schedule for this work is so arranged as not to interfere with their team work, or I hope that it is. So long as athletics helps the schools, so long is it a desirable factor; when it tries to make the school subservient to its will, it becomes a harmful and not a helpful influence. Play the game.

ROLL OF HONOR. In common with many other schools in the State, I decided this winter to institute a Roll of Honor based upon 90% in every recitation, and "A" in deportment.

During January only eight of the school failed to place their names on the Roll. "Sunt sua præmia laudi."

SPEAKING CONTEST. The last two years Mr. Frank L. Besse has offered to give the same prizes for speaking contests in this school as he has been giving in Clinton and Pittsfield. The congestion of work due to the "flu" and preparations for graduation has made it seem advisable to forego such additional work. I hope that hereafter we can take advantage of his generous offer.

Thanking you all for another very pleasant year,

JOHN C. PARLIN.

February 23, 1920.
